

## RING ROWING CLUB REGATTA SAFETY STATEMENT

Welcome to the Ring Rowing Club Head 2022 @ Curraghally Lake Drinagh Co. Cork. We hope that you have an enjoyable, safe and successful day . With your help and co-operation, we look forward to a safe day of racing for everyone concerned. Our aim is that all competitors, officials and visitors will uphold all good practices that exist in Rowing throughout all the clubs participating over the course of the event.

### Policy Statement

Ring rowing club is committed to running this regatta in a safe manner. The safety of the competitors, spectators and regatta officials is given the highest priority in the organisation and running of the event. It is the Regatta Committee's policy to:

- Operate a management system for the event, in which the implementation of the health, safety and environmental policy is a management responsibility.
- Ensure that volunteers, have a good understanding of the health, safety and environmental impact of the events and how we are to manage these.
- Provide the necessary training to enable our volunteers, to carry out responsibilities.
- Conduct activities having regard for the protection of the environment.

The Regatta Committee has overall responsibility for the development and review of this policy, along with the development of Safety, Health and Environmental Guidance, Standards and event specific procedures.

## **Responsibilities**

It is the responsibility of each participating club to ensure the safety of their members while participating, including knowing what to do if they capsize. All participants should be competent to compete and wear appropriate clothing for the weather conditions and carry the necessary safety equipment for each boat.

It is the responsibility of each crew to ensure that the equipment that they are using is safe and compliant with the requirements of Rowing Ireland's rules of racing.

## **Method**

Safety awareness will be promoted by the following means:

- Informing Club Secretaries of the event rules in advance by correspondence.
- Holding a crew captains meeting prior to racing.
- Appointing umpires as required on the course.
- Providing Rescue boats and first aid crews.
- Recover any capsizes as quickly and safely as possible.
- Holding a meeting of all volunteers prior to the event.

## **Safety Assessment**

It will be the responsibility of the event safety advisor in conjunction with the Regatta Director to carry out an inspection of the course at least 90 minutes before the first race is due to start. As part of this safety assessment the weather conditions should be checked and noted.

## **Traffic Plan/ Parking/Vehicular Access**

All parking for the event shall be in the designated car parks. The host club shall liaise with the local Council, civil defence and residents, in advance of the regatta to;

- Assisting with traffic / parking in the main event centre.
- Managing access to the crewing areas.
- Giving information to other local users.

The host club shall also liaise with An Garda Siochana in advance of the Regatta to agree a plan. Any necessary parking cones or signs should be put in place in sufficient time for the event.

## **Event Centre Access**

Given the nature of the event it is likely the main event centre will have limited vehicular access. The management and coordination of vehicular movements on site shall be the responsibility of the host club and any changes to the agreed plan must be agreed with the event safety officer /regatta director in advance.

Each participating club will be permitted to bring their vehicle with trailer boat into the unloading area with them. After unloading the trailer should be returned to the car park as directed by marshalling personnel. A spotter should always be used when reversing or parking trailers. Your trailers wheels should be chocked if they are on a grassy or uneven surface.

### **Water Safety**

The regatta will be run in accordance with the Rowing Ireland guidelines for regattas along with the relevant aspects of the Irish Water Safety Code. It is the intention of the Regatta Committee to encourage water safety awareness throughout the regatta event.

- Each club will be allocated an area for storing their boats. This will be designated by a sign on a post.
- All Crews must check their equipment to ensure that enough buoyancy aids are on board and that tow rope is correctly attached.
- Coxes must wear a buoyancy aid.
- Clubs shall ensure that all equipment is removed from the launching & recovery area when not being used.

### **Safety Briefings**

In order to ensure the smooth and safe running of the regatta, the safety briefing will take place in the morning before racing commences at the Crew Captains meeting.

This briefing shall outline the various risks associated in the above areas emphasising the safety rules that are in place for the championships. It shall also outline any relevant weather information that may have an effect on racing that day. This briefing shall also outline the rules associated with the days racing. It shall also outline that above all safety is out utmost priority.

### **Race Umpires**

Race umpires will

- Providing a presence on the rowing course and feed-back of any incidents during racing.
- Ensuring the racing rules of the event are enforced at all times.
- Assisting crews in the event of equipment failure, collision or an accident

### **Crew Captains/Competitors/Coxswains**

Each competitor and competing club also have a duty of care to themselves and others. The Decision to compete is a club's own decision. Competitors should ensure that adequate clothing and protection is worn depending on weather conditions. In the event of cold weather conditions rowers, volunteers, and all involved should ensure they are properly clothed.

### **Coxes:**

All coxes and those rowers required by rules to wear personal flotation devices should be familiar with the method of operation of the PFD. All coxswains must attend the crew captains meeting. At all times coxswains must ensure the safety of their crew is their utmost priority.

### **Course Map**

A copy of the course map shall be given out to all clubs prior to the event and shall also be on display at the venue. This map shall outline the course and will indicate warm up / cool down areas and also identify hazards areas.

### **Safety Boat(s)**

Two dedicated safety boats shall be available on the day with a minimum of 1 certified first aid personnel / medical trained personnel on board and a second suitably qualified crewmember. A minimum of one of the dedicated safety boats shall be on the water at all times. The boats shall be fast boats capable of taking on board at least 8 persons. The safety boats shall maintain a position close to the racing course but remain clear so as not to interfere with the racing. In the event of an incident please refer to Accident / Incident Procedure.

### **First Aid/Ambulance/Medical Personnel**

As with any event of this nature it is essential that a detailed first aid plan is in place for the duration of the Regatta.

A fully equipped First aid station shall be on site for the duration of the regatta. The location of the station will be the close to the event tent. The medical personnel shall have a two-way radio so as that it can be contacted at all times. A briefing should outline to everyone involved with the First Aid / Medical event team the plans that are in place should a first aid / medical incident arise. The First Aid / Medical Assets shall have an Event Medical Sheet with them which shall show the various access points to the Shore and Water and also contact details for the main medical centres in the area. It shall also detail the two-way radio procedure in the event of an emergency taking place. A patient report form (PHECC PCR) should be completed for each patient. All patient activity will be reported to the Safety Advisor.

### **Emergency Action Plan**

This Emergency Action Plan sets out mitigation and procedures in relation to an emergency which represents a general threat to regatta participants. Responsibility for actions in the event of an emergency rests with the Safety Advisor.

The medical team will deal with general injuries and emergencies if this needs to be escalated the local ambulance will be contacted to provide assistance.

### **Emergency Radio Procedures**

Emergency radio messages should be given slowly, clearly and repeated twice. When other radio users hear the words "ALL USERS, RESCUE, RESCUE, RESCUE" radio silence MUST be adhered to. Advise slowly - WATER, OR BEACH OR CAR PARK with location, type of incident, who is in trouble and type of incident. ie Capsize boat no 13, OR Crew Illness, OR Beach Incident, OR Car Park Incident.

The initial incident report for a: Code-Red= Medical Emergency or Code Blue =Fire or land based.

- What is needed (medical or safety boat).
- Location Lake or bankside that the service is needed.
- What has happened.
- The number of casualties.
- The severity of injuries or illness.
- If racing needs to be suspended.

In the event of any accident or emergency beyond that detailed in the safety plan and outside the capabilities of the regatta first aid and safety facilities, the emergency services will be called using 999 by mobile phone.

If available an EIR Code will assist Emergency services. All Traffic stewards will prepare and clear the area for movement of the arrival and departure of the ambulance.

### **Water Based Incident: Code Red**

In the event of a water-based accident / medical situation the following is the procedures that apply:

1. The coxswain or other member of the subject boat shall raise their two hands to alert the stewards / safety boat that assistance is required.
2. The umpires/ Safety Boat personnel shall notify race control that they have been called upon.
3. The safety boat shall proceed in a prompt but safe manner to the subject boat.
4. If necessary Race Control Shall notify the First Aid Crew to standby for further information.
5. In the event that it is a medical incident then the safety boat shall contact the ambulance crew and give them a report on what has happened and where they will be bringing the boat ashore.
6. The safety boat shall then bring any injured competitors to the agreed meeting point with the first aid personnel.
7. The ambulance/first aid team shall then proceed to the advised location and be prepared to treat the patient(s).
8. The event safety adviser shall also attend the scene and keep the regatta director updated on any news as available.

### **Land Based Incident- Code Red**

In the event of a land-based accident / medical situation the following is the procedures that apply:

1. Proceed to the nearest steward / first aid personnel and inform them of the incident.
2. The stewards shall notify the First Aid team that they are required and given the details of location etc.
3. The ambulance / first aid team shall then proceed to the advised location and be prepared to treat the patient(s).
4. The event safety advisor shall also attend the scene and keep the regatta director updated on any news as available.

### **Fire Hazard**

If anyone sees smoke or fire in any enclosures, or engines, they should raise the alarm immediately.

### **Equipment failure:**

Should there be a Radio failure during the event, Safety Boats and marshals etc shall use mobile phones & loudhailers to communicate. If this is not possible Race Control shall be informed.

**Floating Hazard:**

Any significant floating debris or “hazard” seen on the water shall be reported to Race Control immediately. A Safety Boat shall be deployed to clear the water and racing shall be suspended.

**Incident Reporting and Contacts:**

The Safety Advisor will maintain a register of all reported incidents where safety is concerned. All such incidents will be investigated by the Safety Advisor and reported to the Regatta Director in order to identify hazards to be managed in future regattas. All regatta officials will be instructed to report all incidents to the Safety Advisor. All such incidents must also be reported to Rowing Ireland via the online reporting portal on the website. IROW safe
