

NEWRY HEAD – 5 February 2022 – START

The marshalling pattern for the start is shown below. The Start will be marked by a tall vertical banner. There will be plenty of room for crews to muster comfortably using the marker posts 'A' and 'B' to gauge their position. Crews starting later will have a 20-30 minute wait for the start and should dress as warmly as possible for the conditions.

Crews will start at approximately 15-20 second intervals. A launch marshal will call each crew forward in turn and all boats in the line should gradually edge forwards as the earlier crews start.
